

**Authorized Projects
Tuscaloosa Area MPO
Fiscal Year 2009**

The federal regulations require Metropolitan Planning Organizations (MPO) to publish a list of projects that were authorized in the previous fiscal year and involved federal highway or transit funds. The table includes projects from the Tuscaloosa Area funded in fiscal year 2009, which ran from October 1, 2008 through September 30, 2009. A project is considered authorized when a funding contract has been completed.

Regarding the format of the following table, the project number refers to the ALDOT's project management number. The description is a basic definition of the project. The scope is an abbreviation of the phase of the project. In general most projects are divided into preliminary engineering, right-of-way purchase, utility relocation, and construction.

The type of work provides a general explanation of the work performed. The cost figures are the total cost for that particular phase. The sponsor is the government or agency that provides the local match for the federal funds. The match on all of the authorized projects was 20%. The bike/ped. element indicates if the project included any bicycle and/or pedestrian facilities. The program is the federal funding category used to undertake the project.

Authorized Projects - Tuscaloosa Area Metropolitan Planning Organization (MPO) - Fiscal Year 2009

Project Number	Project Description	Scope *	Type of Work	Cost	Sponsor **	Bike/Ped. Element	Program
100053016	2009 Contract Mowing On I-59 In Tuscaloosa County From Greene County Line To Jefferson County Line	MC	ROADSIDE MOWING	\$145,048	ALDOT	No	ST
