Transit Plan Resource Assessment, Needs, Barriers, and Strategies Report

Bibb County

2.3 Transit Resource Assessment

This section provides a description of each agency or company that provides or purchases transit service in Bibb County. The agency descriptions are divided into public/non-profit and private. The public and non-profit agencies were grouped together because the non-profits are generally funded by public agencies or governments. Descriptions of the Federal Transit Administration (FTA) funding categories used by the public and non-profit agencies are included in Chapter 10.

Public and Non-Profit Systems

- **Alabama Department of Human Resources**

The Alabama Department of Human Resources maintains an office in all 67 Alabama counties. In west Alabama, the agency _____.

- **Alabama Department of Mental Health**

The service area for the Alabama Department of Mental Health - Region II Community Services program includes Bibb, Fayette, Greene, Hale, Lamar, Pickens, and Tuscaloosa County. In west Alabama the agency contracts with the ARC of Fayette/Lamar/Marengo, the Arc of Tuscaloosa, and West Alabama Public Transportation to provide transportation service for their clients.

- **Alabama Institute for Deaf and Blind**

The Alabama Institute for Deaf and Blind (AIDB) provides transportation services to people who have vision and/or hearing loss. The AIDB has a regional center in Tuscaloosa. Their main office is in Talladega. The AIDB Center in Tuscaloosa serves Bibb, Fayette, Greene, Hale, Lamar, Pickens, and Tuscaloosa County.

- **Alabama Kidney Foundation**

The Alabama Kidney Foundation purchases transit service for clients in all 67 Alabama counties. Their clients are limited to kidney patients who make \$1,000 or less per month. The transit service is funded by state appropriations and private contributions. The Foundation utilizes numerous transit providers throughout the state. The Foundation also reimburses client family and friends who provide transportation. The transit program operates from 5:00 a.m. till 6:00 p.m., Monday through Saturday. The Foundation is located in Birmingham, Jefferson County. The Foundation indicated that they would like to provide service to individuals who are above the \$1,000 threshold but are not able to due

to funding limitations. The Foundation also indicated that the lack of transit service in rural areas is a problem.

- **Alabama Medicaid Agency**

The Alabama Medicaid Agency offers non-emergency transit service to full-covered Medicaid beneficiaries for Medicaid covered medical appointments. The agency provides Electronic Benefits Transfer (EBT) cards to its clients to purchase transit service. The agency requires that public transit services be used instead of for-profit companies if the service meets the needs of its clients. However, the EBT cards can be used for reimbursement of private vehicle use. This is the most common use of the Medicaid non-emergency transportation program in Alabama. Most of the service is associated with recurring medical needs such as dialysis and chemotherapy.

The Alabama Medicaid Agency does not contract with transit providers. The Agency does maintain a registry of licensed transit providers for its clients. Registered providers in west Alabama include HELP, Inc., Kid One, Northstar EMS, and West Alabama Public Transportation.

- **AM-Serv EMS**

AM-Serv EMS is a private, non-profit transportation provider operating in Bibb County. The agency operates seven days a week, 24 hours a day and provides emergency and non-emergency transportation. The agency is located in Centreville and is associated with the Bibb County Medical Center.

- **Bibb County Department of Human Resources**

The Bibb County Department of Human Resources (DHR) purchases transportation service for some of its clients. The DHR provides social services to adults and children in the county.

- **Brent-Centreville Senior Center**

The Brent-Centreville Senior Center provides transportation service to senior citizens utilizing the facility. Approximately once a week, the center transports clients from Cahaba Trace, Brantwood Lane, and other areas of the community to the center. The center has one part-time driver, limiting the transportation service they provide. The center is able to serve wheelchair clients.

- **Indian Rivers Behavioral Health**

Indian Rivers Behavioral Health (IRBH) serves mental health, substance abuse and intellectually disabled clients by providing mental health treatment, life skills training and residential support. The agency is located in Tuscaloosa. Its service area includes Bibb, Pickens, and Tuscaloosa County. The agency provides transportation to its clients on a case-by-case basis and/or assistance with accessing public transit services. Generally, client-specific transportation is provided Monday through Friday from 8:00 a.m. to 5:00 p.m. However, Indian Rivers manages numerous residential facilities where transportation service is

available to those individuals 24 hours a day, seven days a week. The agency serves over 6,000 people annually.

- **West Alabama Public Transportation**

The West Alabama Public Transportation (WAPT) agency is the largest transit provider in the State. WAPT utilizes FTA Section 5311, 5311(f), 5316, and 5317 grants to fund their service. The agency also maintains numerous contracts to provide specialized transportation to different agencies. The WAPT serves nine counties in West Alabama including Bibb, Greene, and Hale. The WAPT Administrative office is located in Demopolis in Marengo County. There are satellite offices in Bibb, Greene, and Hale County.

WAPT has no age or income limitations and customer charges vary. WAPT transports clients for medical/dental services, recreational activities, personal business, employment, and other services. The WAPT 5311 service operates from 7:00 a.m. to 8:00 p.m., depending on scheduling Monday through Friday and provides limited weekend service.

The service has several fixed routes but also offers demand-response routes. The WAPT averages over 360,000 passenger trips per year in their nine-county service area. The WAPT fleet consists of approximately 65 vehicles with capacities ranging from seven to 30 passengers. The fleet includes 12 wheelchair lift vehicles.

In Bibb County, WAPT contracts with the Alabama Kidney Foundation and the Alabama Department of Mental Health. WAPT is also on the Alabama Medicaid Agency transportation provider registry in Bibb County.

Private Systems

- **Cahaba Medical Care Foundation**

Cahaba Medical Care Foundation is a private company located in Centreville. The company provides gas cards and transportation vouchers to clients. The vouchers are accepted by West Alabama Public Transportation and CV Transerv.

- **CV Transerv - Bibb Medical Center**

The CV Transerv is a non-emergency transportation service provided by the Bibb Medical Center. The company serves nursing homes, clinics, and hospital patients in the Centreville area. In addition to local service, the company also provides transportation to Tuscaloosa and Clanton for dialysis treatments. The company operates seven days a week, 24 hours a day. The company has two wheel-chair accessible vans. On average, the company transports between 14 and 20 people per week.

- **South Mobile Area Regional Transit**

South Mobile Area Regional Transit (SMART) is a private provider operating in Bibb County. The company provides on-demand transportation services within a 200-mile radius of the county with trips routinely made to Tuscaloosa, Shelby, Perry, and Jefferson County. SMART operates 24 hours a day, year-round and has two wheelchair accessible buses, one regular van, and two cars. The company charges by the mile. The company is an as-needed service provider for the DCH Medical Center in Tuscaloosa.

Current Coordination Efforts

- In Bibb County, current coordination efforts include utilization of existing providers and contracts. These efforts address a previously identified transit gap. In many cases an agency that needs transportation for its clients will use an existing provider rather than start its own transit system. The transit purchasing agency can simply direct its clients to the providers or can enter into a contract with the provider. These mutually beneficial arrangements allow agencies that need transportation for their clients to take advantage of existing transit services. The transit purchasing agencies save money and time by using the existing providers. The providers gain revenue to support their operations. The Bibb County providers did not identify any cases of sharing transit resources.

Bibb County Contracts

- Alabama Department of Mental Health contracts with West Alabama Public Transportation
- Alabama Kidney Foundation contracts with West Alabama Public Transportation
- Bibb County DHR contracts with South Mobile Area Regional Transit company

2.4 Transit Needs

Figure 1 displays the census block groups that have a higher than average population of disabled, elderly, and poor. These block groups roughly cover the northern third of the county, area north of Centreville, and the southeast part of the county. This figure also locates possible transit destinations. As expected, most of the destinations are in the incorporated areas of Brent, Centreville, West Blocton, and Woodstock. The transit routes of West Alabama Public Transit (WAPT) are included on this figure. The WAPT routes pass through Brent, Centreville, West Blocton, and Woodstock. Many of the highlighted block groups are not covered by transit routes.

Surveys were provided to transit providers, social service organizations, and transit riders in the Fall 2018. The staff and transit committee used the survey responses to develop a list of needs in the county. In the December 2018, the transit committee verified these needs.

Needs Not Currently Addressed

- Night service

- Weekend service
- Service to rural areas of the county
- Additional public and private providers
- Service to other counties
- Additional shopping service
- Additional recreation service
- Additional accessible vehicles
- Education of general public (services available, how to use, application process, operations times, costs, contact information)
- Reliable scheduling method
- Communication between clients and drivers
- Coordination of client trips that originate at a common community and end at common destinations
- Qualified drivers

Needs Met or Partially Met with Current Service

- Daytime, Monday through Friday Service
 - Medical trips
 - Work trips
 - Vocational training trips
 - Shopping trips
 - Recreation trips
 - Local trips
 - Out-of-county trips

Based on the survey responses and committee discussions there does not appear to be any duplication of service in the county.

2.5 Transit Service Barriers

The staff, working with the transit committee and using the survey responses, developed a list of barriers that prevent the needs from being addressed. These barriers are consistent across the rural counties in the region. The local agencies and governments have limited control over the barriers, which are often related to economic issues, personal choice decisions, and the nature of rural communities.

Barriers

- Lack of funding (local, state, federal, private)
- Small client base limits opportunities for profits
- Cost of for-profit service
- Dispersed population
- Training required to manage some clients
- Aides required for some clients
- Drivers sometimes serve as social workers and are not available to drive for other agencies

The challenge of the transit agencies and local governments is to find ways around these barriers. The funding to address every need will never be available. The economics of providing transit service to a small number of dispersed clients will never appeal to a for-profit business. Innovative ideas will be required, if the needs are to be met.

2.6 Strategies to Address Needs and Barriers

The staff, working with the transit committee, developed the following strategies. Several of the proposals are related to maintaining the current level of service. These were included because the existing services are addressing gaps that previously existed. The strategies are general in nature so as not to preclude any future projects. Many of the strategies indicate that additional funding will be required for implementation. In some cases, the additional funding could be a reallocation of existing funds or programs. New funding streams may not always be needed.

Strategies

- Maintain current transit service (**High**)
- Maintain current transit contracts and coordination efforts (**High**)
- Expand current transit service (Additional funding required) (**High**)
 - Nights
 - Weekends
 - Rural areas of county
 - Inter-county
- Support/Establish additional transportation providers (Additional funding required) (**High**)
- Support/Establish alternate transit options where transit service is not available or cost prohibitive, such as car/van pools and transportation stipends (Additional funding required) (**Medium**)
- Support efforts to establish a state transit funding source (**High**)
- Support efforts to combine and/or leverage funding sources (**High**)
- Develop education/outreach programs (Additional funding may be required) (**Medium**)
- Improve current transit service (Additional funding may be required) (**High**)
 - Scheduling
 - Communication between clients and drivers/providers
 - Trip coordination
 - Driver training

The list of strategies includes an implementation priority (High, Medium, Low) assigned by the transit committee. The priority is based on available resources, time, and feasibility. The priority assigned does not have a direct correlation to the amount of support or the amount of need. It simply reflects the existing reality based on the ranking criteria. If circumstances change, a low or medium priority strategy could be implemented prior to one that was ranked as a high priority.
