# Transit Plan Resource Assessment, Needs, Barriers, and Strategies Report

## Fayette County

### 3.3 Transit Resource Assessment

This section provides a description of each agency or company that provides or purchases transit service in Fayette County. The agency descriptions are divided into public/non-profit and private. The public and non-profit agencies were grouped together because the non-profits are generally funded by public agencies or governments. Descriptions of the Federal Transit Administration (FTA) funding categories used by the public and non-profit agencies are included in Chapter 10. The public and non-profit transit providers in Fayette County limit service to a small section of the population, usually associated with a particular government or agency service program. The general population does not have a public transit option.

#### Public and Non-Profit Systems

- **Alabama Department of Human Resources**

The Alabama Department of Human Resources maintains an office in all 67 Alabama counties. In west Alabama, the agency \_\_\_\_\_.

- **Alabama Department of Mental Health**

The service area for the Alabama Department of Mental Health - Region II Community Services program includes Bibb, Fayette, Greene, Hale, Lamar, Pickens, and Tuscaloosa County. In west Alabama the agency contracts with the ARC of Fayette/Lamar/Marengo, the Arc of Tuscaloosa, and West Alabama Public Transportation to provide transportation service for their clients.

- **Alabama Institute for Deaf and Blind**

The Alabama Institute for Deaf and Blind (AIDB) provides transportation services to people who have vision and/or hearing loss. The AIDB has a regional center in Tuscaloosa. Their main office is in Talladega. The AIDB Center in Tuscaloosa serves Bibb, Fayette, Greene, Hale, Lamar, Pickens, and Tuscaloosa County.

- **Alabama Kidney Foundation**

The Alabama Kidney Foundation purchases transit service for clients in all 67 Alabama counties. Their clients are limited to kidney patients who make \$1,000 or less per month. The transit service is funded by state appropriations and private contributions. The Foundation utilizes numerous transit providers throughout the state. The Foundation also reimburses client family and friends who provide transportation. The transit program operates from 5:00 a.m. till 6:00 p.m., Monday through Saturday. The Foundation is located in Birmingham,

Jefferson County. The Foundation indicated that they would like to provide service to individuals who are above the \$1,000 threshold but are not able to due to funding limitations. The Foundation also indicated that the lack of transit service in rural areas is a problem.

- **Alabama Medicaid Agency**

The Alabama Medicaid Agency offers non-emergency transit service to full-covered Medicaid beneficiaries for Medicaid covered medical appointments. The agency provides Electronic Benefits Transfer (EBT) cards to its clients to purchase transit service. The agency requires that public transit services be used instead of for-profit companies if the service meets the needs of its clients. However, the EBT cards can be used for reimbursement of private vehicle use. This is the most common use of the Medicaid non-emergency transportation program in Alabama. Most of the service is associated with recurring medical needs such as dialysis and chemotherapy.

The Alabama Medicaid Agency does not contract with transit providers. The Agency does maintain a registry of licensed transit providers for its clients. Registered providers in west Alabama include HELP, Inc., Kid One, Northstar EMS, and West Alabama Public Transportation.

- **ARC of Fayette/Lamar/Marengo Counties**

The ARC of Fayette/Lamar/Marengo Counties (ARCFLM) provides transit service exclusively to their clients, individuals with developmental disabilities. The program makes frequent medical trips and weekly recreational trips. The ARCFLM provides transit service Monday through Friday from 8:30 a.m. till 2:00 p.m. but also offers 24-hour availability. The ARCFLM makes regular trips to Jasper, Northport, Tuscaloosa, Winfield, Guin, Hamilton, and Birmingham. The ARCFLM drivers serve as day habilitation and residential training assistants when they are not driving. The agency indicated that insurance problems would prevent any sharing of resources. The ARCFLM office is located in the City of Fayette and its transportation service area includes Fayette, Lamar, and Marengo County. The agency uses FTA Section 5310 grants to purchase vehicles.

- **Fayette County Aging Program**

The Fayette County Aging Program (FCAP) has a contract with the West Alabama Area Agency on Aging (AAA) to provide transportation to the AAA clients and to transport the clients to the three AAA senior centers. The FCAP provides transit service Monday through Friday, 8:00 a.m. to 1:00 p.m. Due to contractual agreements and insurance, the FCAP service is limited to its AAA clients. The agency has used FTA Section 5309 and 5310 grants to purchase vehicles. The FCAP is located in the City of Fayette and its service area is Fayette County.

- **Northwest Alabama Mental Health Center**

The Northwest Alabama Mental Health Center (NWAMHC) is a comprehensive mental health program that offers adults and children outpatient services in Fayette, Lamar, Marion, Walker, and Winston County. NWAMHC operates day rehabilitation/day habilitation programs in Fayette and Winfield and adult mental illness residential services in Fayette and Berry. The center provides transit service exclusively to its consumers. Trips are provided for medical services, shopping, and recreation. In Fayette County, NWAMHC provides approximately 31,000 transit trips per year. NWAMHC is a non-profit agency and is located in the City of Jasper in Walker County. The center uses FTA Section 5310 grants to purchase vehicles.

- **West Alabama Area Agency on Aging**

The West Alabama Area Agency on Aging (AAA) serves senior citizens in west Alabama. The AAA provides transportation to their senior centers. The AAA contracts with the Fayette County Aging Program to provide this service in Fayette County.

### **Private Systems**

- **Fayette County Nursing Home**

The Fayette County Nursing Home is a private company that purchases transportation service for its clients. The company currently works with Northstar EMS (Fayette EMS) for medical related transportation.

- **Generations of Vernon**

Generations of Vernon is a private company that provides transit service to its clients. Its service area includes Fayette and Lamar County. The company has one wheelchair-accessible van and provides demand response service for medical and recreational purposes.

- **Northstar EMS**

The Northstar EMS (Fayette EMS) provides non-emergency service to hospital patients, nursing home residents, and dialysis patients. Northstar EMS operates year-round, 24 hours a day and serves Fayette, Greene, Hale, Pickens, and Tuscaloosa Counties. The EMS has an office in the City of Fayette. The company is owned by Northstar EMS, located in Northport.

### **Current Coordination Efforts**

- In Fayette County, current coordination efforts include utilization of existing providers and contracts. These efforts address a previously identified transit gap. In many cases an agency that needs transportation for its clients will use an existing provider rather than start its own transit system. The transit purchasing agency can simply direct its clients to the providers or can enter into a contract with the provider. These mutually beneficial arrangements allow agencies that need transportation for their clients to take advantage of existing transit services. The transit purchasing agencies save money and time by using the existing

providers. The providers gain revenue to support their operations. The Fayette County providers did not identify any cases of sharing transit resources.

#### Fayette County Contracts

- Alabama Department of Mental Health contracts with the ARC of Fayette/Lamar/Marengo
- West Alabama AAA contracts with the Fayette County Aging Program

### **3.4 Transit Needs**

Figure 2 displays the census block groups that have a higher than average population of disabled, elderly, and poor. These block groups are generally east, north, and west of the City of Fayette, and surrounding the Towns of Berry, Glen Allen, and Winfield. This figure also locates possible transit destinations. As expected, most of the destinations are in the City of Fayette and to a lesser extent the Towns of Berry and Belk. The transit routes of the ARC of Fayette, Lamar, and Marengo, the Fayette County Aging Program, and the Northwest Alabama Mental Health Center (NAMHC) are included on this figure. The routes generally cover the highlighted block groups. However, every highlighted block group is not served by every provider.

Surveys were provided to transit providers, social service organizations, and transit riders during Fall of 2018. The staff and transit committee used the survey responses to develop a list of needs in the county. In December 2018, the transit committee verified these needs.

#### Needs Not Currently Addressed

- Weekend service
- Service to rural areas of the county including Bluff, Kirkland, and Wayside
- Additional public and private providers, including a Section 5311 provider
- Service to other counties including Tuscaloosa and Walker
- Shopping service
- Newer vehicles
- More frequent service
- Recreation service
- Additional accessible vehicles
- Education of general public (services available, how to use, application process, operations times, costs, contact information)

#### Needs Met or Partially Met with Current Service

- Daytime, Monday through Friday Service
  - Medical trips
  - Work trips
  - Vocational training trips
  - Shopping trips
  - Recreation trips
  - Local trips
  - Out-of-county trips

Based on the survey responses and committee discussions, there does not appear to be any duplication of service in the county.

### **3.5 Transit Service Barriers**

The staff, working with the transit committee and the survey responses, developed a list of barriers that prevent the needs from being addressed. These barriers are consistent across the rural counties in the region. The local agencies and governments have limited control over the barriers, which are often related to economic issues, personal choice decisions, and the nature of rural communities.

#### Barriers

- Lack of funding (local, state, federal, private)
  - Operating funds
- Small client base limits opportunities for profits
- Cost of for-profit service
- Dispersed population
- Training required to manage some clients
- Aides required for some clients
- Drivers sometimes serve as social workers and are not available to drive for other agencies

The challenge of the transit agencies and local governments is to find ways around these barriers. The funding to address every need will never be available. The economics of providing transit service to a small number of dispersed clients will never appeal to a for-profit business. Innovative ideas will be required, if the needs are to be met.

### **3.6 Strategies to Address Needs and Barriers**

The staff, working with the transit committee, developed the following strategies. Several of the proposals are related to maintaining the current level of service. These were included because the existing services are addressing gaps that previously existed. The strategies are general in nature so as not to preclude any future projects. Many of the strategies indicate that additional funding will be required for implementation. In some cases, the additional funding could be a reallocation of existing funds or programs. New funding streams may not always be needed.

#### Strategies

- Maintain current transit service (**High**)
- Maintain current transit contracts and coordination efforts (**High**)
- Expand current transit service (Additional funding required) (**High**)
  - Weekends
  - Rural areas of county including Bluff, Kirkland, and Wayside
  - Inter-county
  - Shopping

- Support/Establish additional transportation providers, including a 5311 provider (Additional funding required) **(High)**
- Support/Establish alternate transit options where transit service is not available or cost prohibitive, such as car/van pools and transportation stipends (Additional funding required) **(High)**
- Support efforts to establish a state transit funding source **(High)**
- Support efforts to combine and/or leverage funding sources **(High)**
- Develop education/outreach programs (Additional funding may be required) **(Medium)**

The list of strategies includes an implementation priority (High, Medium, Low) assigned by the transit committee. The priority is based on available resources, time, and feasibility. The priority assigned does not have a direct correlation to the amount of support or the amount of need. It simply reflects the existing reality based on the ranking criteria. If circumstances change, a low or medium priority strategy could be implemented prior to one that was ranked as a high priority.
