# Transit Plan Resource Assessment, Needs, Barriers, and Strategies Report

## Hale County

### 5.3 Transit Resource Assessment

This section provides a description of each agency or company that provides or purchases transit service in Hale County. The agency descriptions are divided into public/non-profit and private. The public and non-profit agencies were grouped together because the non-profits are generally funded by public agencies or governments. Descriptions of the Federal Transit Administration (FTA) funding categories used by the public and non-profit agencies are included in Chapter 10.

#### Public and Non-Profit Systems

- **Alabama Department of Human Resources**

The Alabama Department of Human Resources maintains an office in all 67 Alabama counties. In west Alabama, the agency \_\_\_\_\_.

- **Alabama Department of Mental Health**

The service area for the Alabama Department of Mental Health - Region II Community Services program includes Bibb, Fayette, Greene, Hale, Lamar, Pickens, and Tuscaloosa County. In west Alabama the agency contracts with the ARC of Fayette/Lamar/Marengo, the Arc of Tuscaloosa, and West Alabama Public Transportation to provide transportation service for their clients.

- **Alabama Institute for Deaf and Blind**

The Alabama Institute for Deaf and Blind (AIDB) provides transportation services to people who have vision and/or hearing loss. The AIDB has a regional center in Tuscaloosa. Their main office is in Talladega. The AIDB Center in Tuscaloosa serves Bibb, Fayette, Greene, Hale, Lamar, Pickens, and Tuscaloosa County.

- **Alabama Kidney Foundation**

The Alabama Kidney Foundation purchases transit service for clients in all 67 Alabama counties. Their clients are limited to kidney patients who make \$1,000 or less per month. The transit service is funded by state appropriations and private contributions. The Foundation utilizes numerous transit providers throughout the state. The Foundation also reimburses client family and friends who provide transportation. The transit program operates from 5:00 a.m. till 6:00 p.m., Monday through Saturday. The Foundation is located in Birmingham, Jefferson County. The Foundation indicated that they would like to provide service to individuals who are above the \$1,000 threshold but are not able to due

to funding limitations. The Foundation also indicated that the lack of transit service in rural areas is a problem.

- **Alabama Medicaid Agency**

The Alabama Medicaid Agency offers non-emergency transit service to full-covered Medicaid beneficiaries for Medicaid covered medical appointments. The agency provides Electronic Benefits Transfer (EBT) cards to its clients to purchase transit service. The agency requires that public transit services be used instead of for-profit companies if the service meets the needs of its clients. However, the EBT cards can be used for reimbursement of private vehicle use. This is the most common use of the Medicaid non-emergency transportation program in Alabama. Most of the service is associated with recurring medical needs such as dialysis and chemotherapy.

The Alabama Medicaid Agency does not contract with transit providers. The Agency does maintain a registry of licensed transit providers for its clients. Registered providers in west Alabama include HELP, Inc., Kid One, Northstar EMS, and West Alabama Public Transportation.

- **Community Service Programs of West Alabama**

The Community Service Programs of West Alabama (CSPWA) contracts with West Alabama Public Transportation to provide transportation for 90 Head Start students in Greene and Hale County. CSPWA operates Head Start programs in six of the seven west Alabama counties.

- **RSVP of Tuscaloosa and Hale County**

The RSVP of Tuscaloosa and Hale County is a senior citizen volunteer program managed by FOCUS on Senior Citizens. FOCUS provides transportation to clients to and from Moundville daily and Akron and Greensboro once a month. Those clients not living in Moundville are reimbursed for the use of their personal vehicle for up to 100 miles a day. The program transports between three and five clients twice a week in Hale County.

- **West Alabama Area Agency on Aging**

The West Alabama Area Agency on Aging (AAA) serves senior citizens in west Alabama. The AAA contracts with West Alabama Public Transportation to provide transit service to its elderly clients in Hale County.

- **West Alabama Mental Health Center**

The West Alabama Mental Health Center provides mental health, mental retardation, and substance abuse treatment. It has offices in five counties including Greene and Hale County. It contracts with West Alabama Public Transportation to transport between 30 and 42 patients a day in these two counties.

- **West Alabama Public Transportation**

The West Alabama Public Transportation (WAPT) agency is the largest transit provider in the State. WAPT utilizes FTA Section 5311, 5311(f), 5316, and 5317 grants to fund their service. The agency also maintains numerous contracts to provide specialized transportation to different agencies. The WAPT serves nine counties in West Alabama including Bibb, Greene, and Hale. The WAPT Administrative office is located in Demopolis in Marengo County. There are satellite offices in Bibb, Greene, and Hale County.

WAPT has no age or income limitations and customer charges vary. WAPT transports clients for medical/dental services, recreational activities, personal business, employment, and other services. The WAPT 5311 service operates from 7:00 a.m. to 8:00 p.m., depending on scheduling Monday through Friday and provides limited weekend service.

The service has several fixed routes but also offers demand-response routes. The WAPT averages over 360,000 passenger trips per year in their nine-county service area. The WAPT fleet consists of approximately 65 vehicles with capacities ranging from seven to 30 passengers. The fleet includes 12 wheelchair lift vehicles.

In Greene and Hale County, the WAPT has contracts with the West Alabama Area Agency on Aging and the West Alabama Mental Health Center. These contracts do not prevent WAPT from serving other segments of the population. WAPT is also on the Alabama Medicaid Agency transportation provider registry. The intercity bus transportation is also available (connector to Greyhound Bus Stations).

## **Private Systems**

- **Colonial Haven Care and Rehab Center**

The Colonial Haven Care and Rehab Center is a long-term care and rehabilitation facility located in Greensboro. Its service area includes Hale County. The company purchases transit service from the Hale County EMS and Northstar EMS. The company uses Medicaid to fund its transit purchases.

- **E&C Taxi Service**

E&C Taxi Service provides demand response service in Greene, Hale, Tuscaloosa, and Jefferson County. The company currently serves Medicaid clients. E&C operates Monday through Saturday from 5:00 a.m. to 6:00 p.m. and on Saturday 11:00 p.m. to 3:00 a.m. The company does not own a wheelchair accessible vehicle.

- **Greyhound Bus Line**

The Greyhound Bus line has four stops in the West Alabama region. These stops are not stand-alone bus stations, but are generally housed with small businesses. The stops and associated businesses are listed below:

- Eutaw, gas station
- Greensboro, gas station
- Moundville community center
- Tuscaloosa, gas station

The stops offer limited service and tickets can only be purchased at the Tuscaloosa location.

- **Hale County EMS**

The Hale County EMS is an ambulance service serving Hale County. Its office is located in Greensboro. The company provides emergency and non-emergency trips for local nursing homes, hospital, and other medical facilities. The company does not serve wheelchair clients.

- **Moundville Health and Rehab**

The Moundville Health and Rehab (MHR) office is located in Moundville. Its service area includes Hale and Tuscaloosa County. The MHR purchases transit service from private providers. The MHR uses Medicaid to fund its transit purchases.

- **Northstar EMS**

Northstar EMS serves Fayette, Greene, Hale, Pickens, Tuscaloosa, and Jefferson County. The company provides emergency and non-emergency trips. The company operates Monday through Saturday, 7:00 a.m. till 5:00 p.m. The company has contracts with several nursing homes and medical facilities in the area. This company does not provide wheelchair service. This company is on the Alabama Medicaid transportation provider registry.

## **Current Coordination Efforts**

- In Hale County, current coordination efforts include utilization of existing providers and contracts. These efforts address a previously identified transit gap. In many cases an agency that needs transportation for its clients will use an existing provider rather than start its own transit system. The transit purchasing agency can simply direct its clients to the providers or can enter into a contract with the provider. These mutually beneficial arrangements allow agencies that need transportation for their clients to take advantage of existing transit services. The transit purchasing agencies save money and time by using the existing providers. The providers gain revenue to support their operations. The Hale County providers did not identify any cases of sharing transit resources.

### Hale County Contracts

- Colonial Haven Care and Rehabilitation Center contracts with Hale County EMS and Northstar EMS
- Moundville Health and Rehab contracts with Northstar EMS
- West Alabama AAA contracts with WAPT
- West Alabama Mental Health Center contracts with WAPT

## **5.4 Transit Needs**

Figure 4 displays the census block groups that have a higher than average population of disabled, elderly, and poor. These block groups generally cover the northwestern corner of the county and the central part of the county, excluding the area northwest of Greensboro. This figure also locates possible transit destinations. As expected, most of the destinations are in the City of Greensboro and the City of Moundville and to a lesser extent the Towns of Akron and Newbern. The transit routes of the West Alabama Public Transportation (WAPT) agency are included on this figure. The WAPT routes cover a large portion of the county including some the highlighted block groups.

Surveys were provided to transit providers, social service organizations, and transit riders during Fall of 2018. The staff and transit committee used the survey responses to develop a list of needs in the county. In December 2018, the transit committee verified these needs.

### Needs Not Currently Addressed

- Night service
- Weekend service
- Additional public and private providers
- More frequent service
- Service for senior citizens who are less than 60 years old
- Service to Shelton State Community College (Tuscaloosa) and Wallace Community College (Selma)
- Service to large employers in Tuscaloosa
- Additional shopping service
- Additional recreation service
- Service to rural areas of the county
- Additional accessible vehicles
- Education of general public (services available, how to use, application process, operations times, costs, contact information)

### Needs Met or Partially Met with Current Service

- Daytime, Monday through Friday Service
  - Medical trips
  - Work trips
  - Vocational training trips
  - Shopping trips
  - Recreation trips
  - Local trips
  - Out-of-county trips

Based on the survey responses and committee discussions there does not appear to be any duplication of service in the county.

## 5.5 Transit Service Barriers

The staff, working with the transit committee and the survey responses, developed a list of barriers that prevent the needs from being addressed. These barriers are consistent across the rural counties in the region. The local agencies and governments have limited control over the barriers, which are often related to economic issues, personal choice decisions, and the nature of rural communities.

### Barriers

- Lack of funding (local, state, federal, private)
- Small client base limits opportunities for profits
- Cost of for-profit service
- Dispersed population
- Training required to manage some clients
- Aides required for some clients
- Drivers sometimes serve as social workers and are not available to drive for other agencies

The challenge of the transit agencies and local governments is to find ways around these barriers. The funding to address every need will never be available. The economics of providing transit service to a small number of dispersed clients will never appeal to a for-profit business. Innovative ideas will be required, if the needs are to be met.

## 5.6 Strategies to Address Needs and Barriers

The staff, working with the transit committee, developed the following strategies. Several of the proposals are related to maintaining the current level of service. These were included because the existing services are addressing gaps that previously existed. The strategies are general in nature so as not to preclude any future projects. Many of the strategies indicate that additional funding will be required for implementation. In some cases, the additional funding could be a reallocation of existing funds or programs. New funding streams may not always be needed.

### Strategies

- Maintain current transit service (**High**)
- Maintain current transit contracts and coordination efforts (**High**)
- Expand current transit service (Additional funding required) (**High**)
  - Nights
  - Weekends
  - Rural areas of county
  - Inter-county
- Support/Establish additional transportation providers (Additional funding required) (**Medium**)
- Support/Establish alternate transit options where transit service is not available or cost prohibitive, such as car/van pools and transportation stipends (Additional funding required) (**Medium**)

- Support efforts to establish a state transit funding source (**High**)
- Support efforts to combine and/or leverage funding sources (**High**)
- Develop education/outreach programs (Additional funding may be required) (**Medium**)

The list of strategies includes an implementation priority (High, Medium, Low) assigned by the transit committee. The priority is based on available resources, time, and feasibility. The priority assigned does not have a direct correlation to the amount of support or the amount of need. It simply reflects the existing reality based on the ranking criteria. If circumstances change, a low or medium priority strategy could be implemented prior to one that was ranked as a high priority.
