Transit Plan Resource Assessment, Needs, Barriers, and Strategies Report

Pickens County

7.3 Transit Resource Assessment

This section provides a description of each agency or company that provides or purchases transit service in Pickens County. The agency descriptions are divided into public/non-profit and private. The public and non-profit agencies were grouped together because the non-profits are generally funded by public agencies or governments. Descriptions of the Federal Transit Administration (FTA) funding categories used by the public and non-profit agencies are included in Chapter 10.

Public and Non-Profit Systems

- **Alabama Department of Human Resources**

The Alabama Department of Human Resources maintains an office in all 67 Alabama counties. In west Alabama, the agency _____.

- **Alabama Department of Mental Health**

The service area for the Alabama Department of Mental Health - Region II Community Services program includes Bibb, Fayette, Greene, Hale, Lamar, Pickens, and Tuscaloosa County. In west Alabama the agency contracts with the ARC of Fayette/Lamar/Marengo, the Arc of Tuscaloosa, and West Alabama Public Transportation to provide transportation service for their clients.

- **Alabama Institute for Deaf and Blind**

The Alabama Institute for Deaf and Blind (AIDB) provides transportation services to people who have vision and/or hearing loss. The AIDB has a regional center in Tuscaloosa. Their main office is in Talladega. The AIDB Center in Tuscaloosa serves Bibb, Fayette, Greene, Hale, Lamar, Pickens, and Tuscaloosa County.

- **Alabama Kidney Foundation**

The Alabama Kidney Foundation purchases transit service for clients in all 67 Alabama counties. Their clients are limited to kidney patients who make \$1,000 or less per month. The transit service is funded by state appropriations and private contributions. The Foundation utilizes numerous transit providers throughout the state. The Foundation also reimburses client family and friends who provide transportation. The transit program operates from 5:00 a.m. till 6:00 p.m., Monday through Saturday. The Foundation is located in Birmingham, Jefferson County. The Foundation indicated that they would like to provide service to individuals who are above the \$1,000 threshold but are not able to due

to funding limitations. The Foundation also indicated that the lack of transit service in rural areas is a problem.

- **Alabama Medicaid Agency**

The Alabama Medicaid Agency offers non-emergency transit service to full-covered Medicaid beneficiaries for Medicaid covered medical appointments. The agency provides Electronic Benefits Transfer (EBT) cards to its clients to purchase transit service. The agency requires that public transit services be used instead of for-profit companies if the service meets the needs of its clients. However, the EBT cards can be used for reimbursement of private vehicle use. This is the most common use of the Medicaid non-emergency transportation program in Alabama. Most of the service is associated with recurring medical needs such as dialysis and chemotherapy.

The Alabama Medicaid Agency does not contract with transit providers. The Agency does maintain a registry of licensed transit providers for its clients. Registered providers in west Alabama include HELP, Inc., Kid One, Northstar EMS, and West Alabama Public Transportation.

- **HELP Inc.**

HELP Inc. is the designated Section 5311 provider in Pickens County. The agency is located in Carrollton, the county seat. The agency provides transit service Monday through Friday, 8:00 a.m. till 4:00 p.m. The agency has a fleet of five vehicles, with two being wheelchair accessible.

HELP Inc. has a contract with the West Alabama Area Agency on Aging (AAA) to transport AAA clients to the Aliceville and Reform AAA senior centers. The contract does not prevent the agency from serving other segments of the population.

The agency provides approximately 15,000 passenger trips per year to the general public, without age or income limitations. Transportation is provided for medical appointments, shopping, pharmacy visits, and other personal business and activities. A modest fare is charged for the service.

- **Indian Rivers Behavioral Health**

Indian Rivers Behavioral Health (IRBH) serves mental health, substance abuse and intellectually disabled clients by providing mental health treatment, life skills training and residential support. The agency is located in Tuscaloosa. Its service area includes Bibb, Pickens, and Tuscaloosa County. The agency provides transportation to its clients on a case-by-case basis and/or assistance with accessing public transit services. Generally, client-specific transportation is provided Monday through Friday from 8:00 a.m. to 5:00 p.m. However, Indian Rivers manages numerous residential facilities where transportation service is available to those individuals 24 hours a day, seven days a week. The agency serves over 6,000 people annually.

- **West Alabama Area Agency on Aging**

The West Alabama Area Agency on Aging (AAA) serves senior citizens in west Alabama. The AAA provides transportation to its senior clients and provides transportation to the AAA senior centers. The AAA contracts with HELP, Inc. to provide transit service to its elderly clients in Pickens County to two of the AAA senior centers.

Private Systems

- **Arbor Woods Health and Rehab**

The Arbor Woods Health and Rehab (AWHR) is a private nursing facility that provides and purchases transit service for its clients. The facility is located in Reform and serves 81 clients. The AWHR has one van to transport clients for medical and recreation services and also purchases service from Northstar EMS (Pickens County Ambulance Service). The AWHR uses Medicaid to fund its transit purchases.

- **Northstar EMS**

Northstar EMS (Pickens County Ambulance Service) serves Fayette, Greene, Hale, Pickens, Tuscaloosa, and Jefferson County. The company provides emergency and non-emergency trips. The company operates Monday through Saturday, 7:00 a.m. till 5:00 p.m. The company has contracts with various nursing homes and medical facilities in the area. This company does not provide wheelchair service. The EMS has an office in the Town of Carrollton.

- **REACH**

The REACH program, located in Carrollton, offers transportation to its clients. REACH is a youth alternative treatment program that is part of the Pickens County Juvenile Court.

Current Coordination Efforts

- In Pickens County, current coordination efforts include utilization of existing providers and contracts. These efforts address a previously identified transit gap. In many cases an agency that needs transportation for its clients will use an existing provider rather than start its own transit system. The transit purchasing agency can simply direct its clients to the providers or can enter into a contract with the provider. These mutually beneficial arrangements allow agencies that need transportation for their clients to take advantage of existing transit services. The transit purchasing agencies save money and time by using the existing providers. The providers gain revenue to support their operations. The Pickens County providers did not identify any cases of sharing transit resources.

Pickens County Contracts

- Arbor Woods Health and Rehab contracts with Northstar EMS
- West Alabama AAA contracts with HELP, Inc.

7.4 Transit Needs

Figure 6 displays the census block groups that have a higher than average population of disabled, elderly, and poor. These block groups generally cover the northwest corner of the county, the area northwest of Pickensville, the area north and west of Aliceville, and the southeastern part of the county. This figure also locates possible transit destinations. As expected, most of the destinations are in the Cities of Aliceville, Reform, Gordo, Carrollton, and to a lesser extent the Towns of Pickensville, Ethelsville, and Memphis. HELP Inc. provides demand response service to all of Pickens County.

Surveys were provided to transit providers, social service organizations, and transit riders during Fall of 2018. The staff and transit committee used the survey responses to develop a list of needs in the county. In December 2018, the transit committee verified these needs.

Needs Not Currently Addressed

- Night service, including early morning and early evening times
- Weekend service
- Additional public and private providers
- Decreased call-in times
- Additional shopping service
- Additional recreation service
- Additional accessible vehicles
- Education of general public (services available, how to use, application process, operations times, costs, contact information)
- Out-of-county trips

Needs Met or Partially Met with Current Service

- Daytime, Monday through Friday Service
 - Medical trips
 - Work trips
 - Vocational training trips
 - Shopping trips
 - Recreation trips
 - Local trips

Based on the survey responses and committee discussions there does not appear to be any duplication of service in the county.

7.5 Transit Service Barriers

The staff, working with the transit committee and the survey responses, developed a list of barriers that prevent the needs from being addressed. These barriers are consistent across the rural counties in the region. The local agencies and governments have limited control over the barriers, which are often related to economic issues, personal choice decisions, and the nature of rural communities.

Barriers

- Lack of funding (local, state, federal, private)
- Small client base limits opportunities for profits
- Cost of for-profit service
- Dispersed population
- Training required to manage some clients
- Aides required for some clients
- Drivers sometimes serve as social workers and are not available to drive for other agencies

The challenge of the transit agencies and local governments is to find ways around these barriers. The funding to address every need will never be available. The economics of providing transit service to a small number of dispersed clients will never appeal to a for-profit business. Innovative ideas will be required, if the needs are to be met.

7.6 Strategies to Address Needs and Barriers

The staff, working with the transit committee, developed the following strategies. Several of the proposals are related to maintaining the current level of service. These were included because the existing services are addressing gaps that previously existed. The strategies are general in nature so as not to preclude any future projects. Many of the strategies indicate that additional funding will be required for implementation. In some cases, the additional funding could be a reallocation of existing funds or programs. New funding streams may not always be needed.

Strategies

- Maintain current transit service (**High**)
- Maintain current transit contracts and coordination efforts (**High**)
- Expand current transit service (Additional funding required) (**High**)
 - Nights
 - Weekends
 - Rural areas of county
 - Additional service to reduce call-in times
- Support/Establish additional transportation providers (Additional funding required) (**Low**)
- Support/Establish alternate transit options where transit service is not available or cost prohibitive, such as car/van pools and transportation stipends (Additional funding required) (**Medium**)
- Support efforts to establish a state transit funding source (**High**)
- Support efforts to combine and/or leverage funding sources (**Medium**)
- Develop education/outreach programs (Additional funding may be required) (**Medium**)

The list of strategies includes an implementation priority (High, Medium, Low) assigned by the transit committee. The priority is based on available resources, time, and

feasibility. The priority assigned does not have a direct correlation to the amount of support or the amount of need. It simply reflects the existing reality based on the ranking criteria. If circumstances change, a low or medium priority strategy could be implemented prior to one that was ranked as a high priority.
